Subject: Hire Immigrant Lawyers

Your Honorable Mayor Lee,

Due to naming, and upholding San Francisco as a Sanctuary City publically after Trump came into office, it will be necessary to hire more Immigrant lawyers to create safety for all people who live, go to school, and make a living in San Francisco.

Please find the funds and support this request.

Respectfully,
Jamie Sheldon

I think it is time the Mayor be arrested and charged for harboring illegal aliens. You are very much under estimating President Trump, he's not going to put up with your shit and will send the Feds for you. California hss been invaded by all kinds of illegall trash under your watch and the time has come that you be held legally responsible for what you have done. Any American killed by and illegall ALIEN under your watch constitutes neglagent homicide and you should be arrested and prosecuted. Under estimate Trump and defy him at your own peril. New President and time to answer to him for what you have done.SOB...

Subject: Stand up against 7-country ban

Dear Mayor Lee,

I am writing to ask that you immediately work to block President Trump's executive order to ban the entry of citizens of many majority Muslim countries. I have several reasons and will outline a few below.

First, this is clearly discriminatory and an attack on people who should not be assumed to be terrorists. Second, it is an ineffective way to keep Americans safe. Those arriving with visas at our airports have gone through significant vetting which assures that they do not pose a threat to our safety. Also, this will further tarnish our reputation on the world stage. By showing hasty, chaotic, and callous treatment of people arriving with all the legal documentation, we show that we do not respect our own processes or people that we perceive as different and therefore dangerous. In addition, we will put our troops and military operations in danger by advertising that locals who help us in times of war cannot count on our support. Finally, we must ask ourselves why the countries that gave us the masterminds of 9/11 are not included. The possible answers that come to my mind are: President Trump's business interests and oil.

Again, I beg of you to stand against this cruel, ineffective, and discriminatory ban immediately.

Sincerely,
Jenny Caughey

Trump said, "The jury was not told the killer of Kate was a 7 time felon. The Schumer/Pelosi Democrats are so weak on Crime that they will pay a big price in the 2018 and 2020 Elections."

You, defiantly say, "San Francisco is and always will be a sanctuary city." The blood is on you hands, my friend.

You are a murderer. You care more about the rights of illegals than those of American citizens. Your hatred of Trump and the Republican party has twisted your already sick, demented mind. When God judges you, he will find Kates blood on your hands.

You may live in a safe gated community, but the majority of people you represent don't. You've invited every illegal to prey on the rest.

Sleep well tonight, you murdering mayor.

In light of the recent Kate Steinle verdict and the fact that the murder of Calvin Riley has not be solved, I fear for my safety and the safety of my son.

I am of mixed race and my son goes to college in the Bay Area. I have conducted business in San Francisco for over 20 years and the city has traditionally been one of my favorite in the world. The recent events mentioned above plus the fact I have noticed a severe decline in quality of life issues in recent visits make it difficult to justify a visit to San Francisco. The entrance to Golden Gate Park is disgusting with open physical and verbal assaults as well as public defecation. You have one of the greatest parks in the world and you are letting certain people ruin it. Do you really think it's humane to let children near human waste ?

I live in the Chicago area and know about recent urban decay issues but your administration apparently advocates racial and ethnic murder. I am not a raging right wing Trump supporter. I am in Independent, free thinking progressive who is concerned that your administration advocates genocide. Your sanctuary policy is not compassion when it lead to crimes against humanity. I would like to have a genuine, educated dialogue about common sense and safety.

I am for human compassion and kindness. I also believe there needs to be a balance with common sense.

I can be reached via email or phone any time.

Mr. mayor, as a native born Californian I am sickened and disgusted that your city allowed Kate Steinle's killer to go free. That man was deported five times! He had felony convictions. And your jury must have been sequestered on another planet to not even convict him of manslaughter or weapons charges! Perhaps if he was a white Christian heterosexual male you would throw the book at him? You bigoted piece of trash. He pulled the trigger! People saw him shooting at seals! People saw him pointing that stolen weapon at people. And please tell me just how he is NOT guilty of involuntary manslaughter for killing Steinle? You brag about SF being a sanctuary city? Really? Sanctuary for scum that murders innocent people? For criminals who disrespect our laws and sovereignty? You sir are as disgrace. I am ashamed of my state..again. You have blood on your hands. What is your idea of justice Mr. Mayor? That low life illegals can get away with murder and you cheer that? San Francisco used to be a good city. Not any more. I hope and pray that President Trump has the DOJ look into this travesty and go after that illegal murderer. Mayor Lee! You are a traitor to America. To hell with you and your leftist agenda.

Subject: Miscarriage of justice

I have practiced law for 39 years. The Steinle decision is a blatant miscarriage of justice. The defendant's reckless and indifferent conduct warranted a conviction for second degree murder. The failure of the jury to even return a manslaughter verdict demonstrates that this is another example of jury nullification by liberal California. This case also illustrates the catastrophe that inevitably follows a myopic political decision to place felons and illegal immigrants above the citizens of this country and beyond its laws. Obviously, San Francisco is not a safe place to live or a safe place to visit.

The verdict was obscene. The subsequent deceitful, dissembling, pettifogging lecture, actually just another liberal diatribe, by the public defenders about Trump did nothing to ameliorate the situation. Their moronic comments worsened it. As I listened in utter disbelief at that arrogant, pretentious, sanctimonious prig, it became clear that the government of this country must control the border to eliminate illegal immigration to the greatest extent possible, and it must stop federal payments to any state or local government that establishes a sanctuary for illegal immigrants that only encourages them to break the laws of this country with the expectation of immunity. As an initial step, I will contact my representatives to insist that the federal government stop all payments to the State of California and the City of San Francisco unless or until it ceases and desists from its dangerous policy of placing convicted felons and illegal immigrants above the law.

An officer of the court has a duty to his client. An officer of the court, an ethical lawyer, also has a duty to the country. The public defender failed miserably to perform that second duty. At the very least, you or other proper authorities (if such a thing exists in San Francisco anymore) should discipline and publically rebuke the public defender for his counter productive and offensive prattle.

In his defense, it is fair to say that the liberal government of San Francisco failed in its duties. Kate Steinle's blood is on their hands. No amount of money can compensate the Steinle family for the loss of their child, or for this judicial travesty. The City of San Francisco and the presiding judge owe the Steinle family an apology for this travesty. I do hope, however, that the Steinle family recovers the greatest amount of damages ever awarded in the judicial history of this county against the City of San Francisco, and that the elected officials that have failed or refused to discharge their obligation the protect and defend their citizens are found personally liable for a material part of that judgment in recognition of their collective gross negligence and willful misconduct.

I hope President Trump hammers Ca, defunds Ca of all federal funding and I hope he enacts new legislation tying your pathetic hands in dealing with, "illegal alien criminals!"

I expect not to receive a reply from your office.

I will not spend a penny in your city. All you do is protect people that should have NO rights and neglect the people that should...This is heart breaking and unbelievable. Dear San Francisco:

We the people of the USA are deeply ashamed of the liberal people of San Francisco bringing such a terrible verdict in the Kare Steinle murder case. This is a tragic outcome. Justice is not blind in SF it is political. SF and Nancy Pelosi has blood on their hands! You do not reflect the feelings of the vast majority of Americans and we are ashamed of you!

We do not consider the people of California to be Americans. Your liberal stance on just about everything makes me sick. San Francisco officials should be in federal prison for failure to comply with National Immigration Law. The governor and State Legislators are equally to blame. You are disgraceful and I for one am finished with you! Leave the Union.

.....
Why is it that CNN(fake news),ABC,NBC,CBS,MSNBC,CNBC, Mother Jones, Vanity Fair Mag, NY Times, The Daily Beast, News Week (FAR LEFT LIBERAL ALL) would slant everything they say pertaining to President Trump/family or any conservative in a negative way and advocate instead of report? Even Mrs Trump is demeaned. Shameful and disgusting.

We don't trust you to be impartial! You all are more the media wing of the Democratic party than a trusted news source. You are in league with the Clinton Crime Family and the DNC.

WE DO NOT TRUST YOU! CNN especially (fake news) stooping so low in humor as to compare President Trumps face to a beagles ear! How low!

CNN is especially to blame for manipulating facts. Recently they interviewed a retired general who claimed President Trump's Thanksgiving message was insulting to our troops. But, in fact, morale has never been higher because now they can fight without Obama restraints. CNN is such a LIAR!

ps...we don't want CNN/Politico and the rest of the liberal media to go to the White House Christmas party!

Congratulations, motherfuckers. California gave us two of the worst miscarriages of justice in recent history. First there was the jury nullification in the OJ Simpson trial. Two innocent victims go without justice, but a militant jury sets free a black man who committed a double murder. Then the east coast gave us the acquittal on the murder charge against the Benghazi Libyan terrorist. That's what happens when we don't put Islamists in Gitmo or subject them to military tribunals. Now we have the Sanctuary City strikes back as part of the resist the democratic election of President Trump decision. An illegal who should have been deported six times is given free reign in your lunatic asylum by the bay to murder a lovely young woman. No doubt your diverse jury saw her as white woman of DNA privilege and dispatched her death to the footnotes of the thousands of American citizens who have been victimized by the invasion of illegal aliens you applaud.

You have a reckoning coming. Millions of Americans are fed up with your California Confederacy. You need to register as agents of foreign countries. Your Public Defender, a Marxist (Green Party is the new party of Reds), an affirmative action beneficiary of Columbia and Stanford educations, an anti-Trump ideologue who couldn't wait to stick it to the American people is a poster

child for your pathetic assortment of professional malcontents. The Barnum and Bailey Circus may have closed, but the freak show is still operating. You and your Council, police chief and the rest of your assorted city government don't look like America to me. You look like a bunch of color-coordinated saboteurs.

One day perhaps you and your crowd of lawyers and politicians and their family members will fall victim to an illegal, be it a case of DUI or a gun, a knife or perhaps a Mexican cartel style or MS-13 type decapitation, a rape or child molestation. Some might call it Karma. I am among the millions of Americans who will no longer visit San Francisco. I have no need to spend my money on a corrupt group of traitors. You have the blood of Kate and many, many other victims of illegal aliens on your hands. You are laughable, but right now America is crying. Your days of receiving federal funds for your propagandizing universities and your sanctuary cities and state are dwindling. In case you didn't notice in your little bubble, there's a new sheriff in town.

A legal American citizen
